

MULTI *Flow*
SMT

In-Line **Mixed Flow Fans**

features & benefits

Multiflow SMT

The Multiflow SMT is a range of in-line mixed flow fans with a compact profile which offers excellent pressure development characteristics, designed specifically for use with rigid or flexible ductwork for a wide variety of residential and commercial applications.

- Integral mixed flow impeller design.
- 4 standard sizes from 100mm to 200mm.
- Air volume flow rates of up to 0.233 m³/s.
- Static pressures of up to 250 Pa.
- Greater pressure capability than axial fans.
- Greater airflow capability than centrifugal fans.
- IPX4 – Splash proof.
- Suitable for operating temperatures up to 60° C.
- Motors are double insulated with built-in thermal overload protection.
- CE Marked.
- Sealed for life ball bearings to operate at any angle.
- Timer adjustable from 3-15 minutes.
- Lower noise

Features & Benefits

Range – There are four sizes, 100mm, 125mm, 150mm and 200mm which can be supplied with or without a run on timer and suitable for continuous running.

Design appeal – The compact design means the SMT is ideal where space is at a premium such as ceiling voids and refurbishment projects.

Material strength – Units are manufactured from shock proof, heat resistant white plastic, which is durable and non corrosive.

Motor protection – Each SMT motor is double insulated so no earth is required with integral thermal overload protection which prevents the motor from overheating.

Design appeal – The compact design means the SMT is ideal where space is at a premium such as ceiling voids and refurbishment projects.

Ease of installation – SMT fans can be mounted in line or at either end of the ductwork, horizontally or vertically, as well as against walls, ceiling voids and other flat surfaces.

Safety – SMT fans are IPX4 Splash proof, protected against water splashing from all directions which means they can be safely installed in Zones I and II in accordance with Building Regulations.

Easy to maintain – All SMT models feature a removable motor and impeller body which ensures easier cleaning without affecting the installation by having to remove the ductwork.

Full ancillary range – Fast clamps, silencers, panel filters, electric heater batteries, flexible connectors and non-return dampers.

Reliability – Motors have sealed for life bearings.

Settings – The timer settings are adjustable between 3-15 minutes.

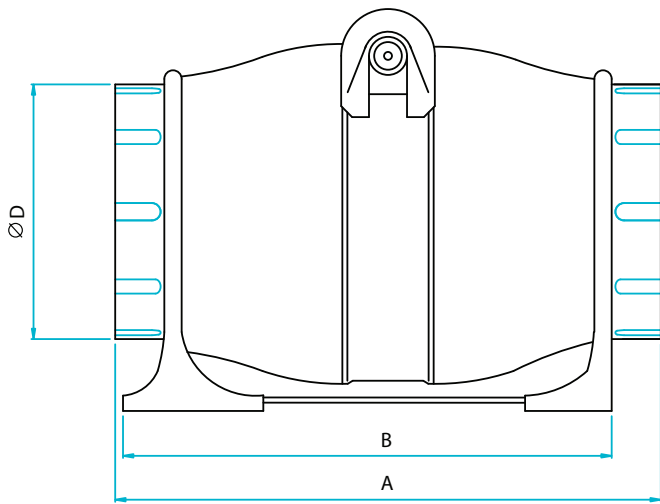

Warranty – Each SMT has a one year warranty.

Applications

Shower rooms, bathrooms, kitchens, utility rooms, residential and commercial facilities.

flexible connector

- Fix directly onto spigot
- Provides flexible connection between fan and accessory or duct
- PVC coated polyester with galvanised sheet steel

Product Code	Fan Dia A	B	Weight kg
018-0100-FLEX	100	150	0.2
018-0125-FLEX	125	150	0.2
018-0150-FLEX	150	150	0.2
018-0200-FLEX	200	150	0.3

silencers

- Pre-galvanised sheet steel with perforated steel lining
- Infill of glass tissue faced high density mineral wool
- For saturated or other special applications please refer to Elta

Product Code	Fan Dia	A	B	C1	C2	C3	C4	D	Weight kg			
									1	2	3	4

* Add 1, 2, 3 or 4 depending on length required.

accessories

fast clamps

- For quick connection of spigotted fans to circular duct or accessories
- Galvanised steel circular duct clamp with foam lining

Product Code	Fan Size	A	B	Weight kg
018-100-CLAMP	100	92	116	0.25
018-125-CLAMP	125	117	141	0.29
018-150-CLAMP	150	142	166	0.33
018-200-CLAMP	200	192	216	0.42

non-return dampers

- Prevents reverse flow of air when fan not operating
- Galvanised sheet steel case
- Spring operated, aluminium sheet blades

Product Code	Fan Dia A	B	C	Weight kg
018-100-DAMPER	100	90	100	0.2
018-125-DAMPER	125	90	100	0.3
018-150-DAMPER	150	90	110	0.3
018-200-DAMPER	200	125	150	0.6

electric heater battery

- Safe and clean heating
- Max exit temperature is 40°C at 70% RHdB
- Galvanised sheet steel case
- Elements are nickel chromium wire insulated by compacted magnesium oxide powder within a stainless steel or incoloy tube and sealed by ceramic bead and silicon sealant
- Air velocity min 2m/s, max 6m/s

Product Code	kW	Stage	Phase	Airflow @ m ³ /s		A	B	C	Weight kg
				Min	Max				
018-0100-HEAT-1	0.75	1	1	0.016	0.047	100	55	400	2

018-0150-HEAT-1	1.5	1	1	0.035	0.106	150	80	400	3
018-0200-HEAT-1	2.0	1	1	0.063	0.189	200	80	400	4

panel filters

- Galvanised steel casing
- Filter media to BS EN 779 rating G3 with 85% arrestance
- Filter access with removable panel

Product Code	Fan Dia A	B	C	D	Weight kg
018-0100-FILT-P	100	155	200	200	2
018-0125-FILT-P	125	155	200	200	2
018-0150-FILT-P	150	155	250	250	2
